

How do I combine FreshFrozen for pets with kibble in 3 easy steps?

Step 1

How much does your dog weigh?

Step 2

How much FreshFrozen do you wish to give per day? ***

Step 3

Divide the recommended daily quantity equally between 2 feeding times on one day.

#fresh frozen in grams *	Kibble in grams **	How much FreshFrozen do you wish to give per day? ***				
		Only FreshFrozen	75%	50%	25%	Day without Fresh Frozen
xSmall (5 kg)	200	0	25	45	70	90
Small (10 kg)	325	0	35	70	115	150
Medium (15 kg)	400	0	45	90	135	180
Large (30 kg)	650	0	70	135	230	295
xLarge (45 kg)	875	0	105	195	305	400

In the morning

Evening

Mix every meal, following the guidelines Step 2.

In the morning

Evening

In the morning, provide kibble. In the evening, when you have more time, provide FreshFrozen.

Kibble day

FreshFrozen day

Alternating 100% kibble days with 100% FreshFrozen days.

* Recommended amount of FreshFrozen based on Jolipet guidelines for dogs <10kg and on Wolf's Menu for dogs >15kg. Adjust as needed. 1 Jolipet hamburger weighs approximately 25 grams; 1 Wolf's Menu hamburger approximately 50 grams.

** Recommended amount of kibble based on the guidelines of a quality kibble. Adjust as needed.

*** These recommended daily amounts are only a guideline, as the needs of dogs vary. Therefore adjust the feeding quantity to maintain the ideal body weight.
